Dear Roger,

You are right, I was \$1.75⁰⁰ (or one coin) short. I found it in the original mailer which I always save - I'm glad I did. It was way off to the side and I just missed it.

Enclosed is \$1.75 as I wish to keep the 1851 #1.

Thanks for the nice note back. Let me know if you find anything.

Comments on your list.

1809 #1 Presently 2 VF35's are known and these are the highest others in the VF range include 4 20's. Lower include 6 Fine 15 to 12, Below that there are about 40-50 in the UG10 to B51

1809 #2 This is Very scarce above VF30, My best one is a EF-40 after May Green of loads

1810 Should be No Problem for the grade you want. I don't have any now - I seem to Recall the latest Penny was Sudan ad with a High grade one.

1811 #1 Costs are going to get High but this Variety can be found in the 30-40 range on clean Planchets

1811 #2 is going to be a Problem as many coins are graded on sharpness - overlooking the usual Porous Planchets they show up on.

1825 #1 Can be found in the range you desire

1826 #1 Again you should be able to find

1826 #2 Is Much Harder than #1

1828 #1 You should have No Problem

1831 Consider yourself lucky to even have a chance to bid on one

1832 #2 Should be No Problem

1832 #3 Is Much Harder than #1 + 2 Watch out the reverse die is Rusted so that you may repeat one that is a Keeper
1835 #2 Should be No Problem except the obverse strike is sometimes rather flat

1849 + 1853 are difficult in Very High Grades 1853 with Full Denticles is much sought after

1854 - Should be No Problem

1855 - As with 1853 Full Denticles are much sought after the one picture in my book, which isn't mine, is one of very few.

Plents again Roger

Dear Roger,

Thank you for sending the
six half cents on consignment.
I have enclosed a check
for \$1,775.⁰⁰ for the 1809 #3,
1825 #2, 1834 #1 and 1850 #1.
I really liked these,
especially the 1809 & 1825!

An interesting thing
happened as a result of
this transaction. After we
talked on the phone I
re-read your book that
night. I had finished
and happened to look thru

the references/acknowledgements
at the end. I saw a Richard
Bilancia of Littleton, Colorado.
I have known him for a year
through business (IBM) and had
never discussed coins (normal)
with him. He was in our
office the next day - imagine
my surprise to learn he
had an almost complete
collection of half-cents at one
time!

Thanks again. I am
looking forward to the
opportunity to purchase more
"duplicates" in the future.

Dave

Dear Roger,

I enjoyed our telephone
conversation and am looking
forward to reading your
book. I hope you are
happy New Year to you
and your family.

Roger;

Would it be possible for me to purchase the 1797 C-2 via a series of installment payments? I was thinking of an initial check for \$350 followed by checks for \$200 at the end of November, December, January, February and March for a total of \$1,350. Please let me know if the above "easy payment plan" is O.K. with you.

Regarding your negatives made from the Stack's plates of Showers collection, I will get prints made and return the negatives to your office within the next two weeks.

Thanks again for volunteering to be on a panel about Early American Copper at our EAC meeting in February at the Baltimore show.

P.S. If the above plan sounds O.K. I will pick the half cent up when I drop by your office with the Showers negatives and prints.

Roger;

Thanks for agreeing to let me pay for the 1797 C-2 half cent in installments. Enclosed is my check for \$350. I will get the next check off to you around the end of November.

If you have the time over the next month or two, can you send me a short bio that I could use when I introduce you at the February show? I've recently mailed out letters to Jules Reiver and Jack Robinson asking them to serve on the panel with you. If time permits after the usual round of questions, I would be interested in hearing how the EAC and the copper hobby have changed over the years and what you consider significant milestones in the half cent and large cent hobby.

I'm looking forward to seeing you in two weeks.

Roger;

Thanks for taking time on two separate occasions to show me the duplicates you have for sale. Looking through my checkbook yesterday, I found a half filled out check with the notation 2nd edition. I believe I must forgotten to pay you for the second edition of your book. Enclosed is the check for \$24. If it turns out I did pay you for the copy of the second edition, please cash the check anyway as payment for two copies of your first edition.

Congratulations on getting one of the proof originals out of the November Stack's auction. At some future date, I would like to look at your copy of the sale and record where some of the better coins went. Looking forward to seeing you at the Baltimore show in February if not sooner.

Sincerely,

Ed Masuoka

Roger -

I've decided to send you a check for the balance of the approved shipment. I still would like a better 1855 than the one you sent. Am assuming that you would have deducted at least \$5- off the price of the 1855 of \$55 so I'm enclosing \$50.- for it. You quoted me \$130- on the 1826 - c2.

Perhaps someday I can trade you for one of your extra 1804-c25. I still need: 1802-c1, 1804-c2, 1806-c3, 1808-c1, & 1831-c1 along with 1794-c36, 46, 56, & 66.

Do you have any of the above available?

Holiday greetings,
Ken Seachman

Dear Roger,

Enclosed please find a check for \$353.⁰⁰ for the following coins offered for sale in the Nov. 15 '89 issue of P-W:

1804 #5	VF-30	\$150 -
1804 #11	VF-25	200 -
Postage & Insurance		<u>3 -</u>
		353 -

I'd appreciate any "history" you might have on these coins (I reserve the term pedigree for coins over 1000 bucks). I had to hold myself back from getting the 1811 #1 Two star break you offered - I need to get the variety set together before I start on die stats; but, IT WAS TEMPTING!

I'm still thinking about the origin of the spiked chin and have gone back to the basics I've been trying to read as much as possible on minting methods & materials in that era and am at work reading Taxay's book on Mint history as well as anything I can lay my hands on. One day, I'm going to try to find some pictures on the early presses to try to get a clue.

In addition, I've been trying to amass any literature on 1/2¢ and have been a weekly visitor to one of Gene Bragg's new haunts - The Money Tree. In fact, I saw Gene there about

a month ago - Fresh from his photo trip. Anyway
Myron & Len at the Money Tree are great guys and are
invaluable. Len is a copper nut, too.

I'm also trying to find info on counter stamped
half cents. I've got a few in my collection but no
luck as to their history. Brunk's book didn't help
me out. Any suggestions?

Best regards, I'm looking forward to the coin-

Sincerely,

Terry Stahura

- Photos of specific Condition Census coins, NO COMPOSITES;
- Enlarged photos of both the obverse and reverse of each variety;
- Realistic rarity evaluations for each variety;
- A section on "The History of Half Cent Collecting";
